

A space for everyone

Lots of us enjoy getting outdoors, particularly to the lovely coastal spaces we have living near the Dee Estuary and many of us have furry friends who enjoy it too. But not everyone likes dogs, and some people are quite afraid of dogs. So we can all share these special places and feel safe, please keep your dog under close control, ideally on a lead, to make sure everyone enjoys their walkies.

That's a funny looking dog

You may encounter some unexpected animals on your visit to the Dee Estuary. Across the estuary there are sheep, cattle and ponies grazing on areas of saltmarsh and pasture. Please be aware that you may encounter these animals and they may react to you and your dog so be alert and keep your dog under close control.
