Catchment Based Approach

Photo by Robin Rowe

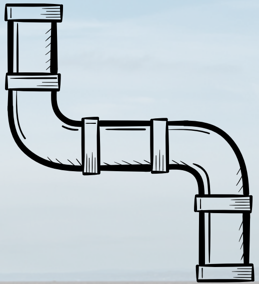
Our Dee Estuary is led by the Tidal Dee Catchment Partnership that aims to maintain, enhance and protect the Dee Estuary by integrating the catchment based approach to promote its sustainable use, enhance its wildlife value and provide recreation and access to nature.

Cheshire Wildlife Trust

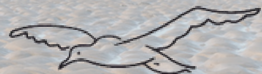
Cronfa Treftadaeth Heritage Fund

Catchment Based Approach

Water drains from towns during heavy rain and can contain pollution. Get a water butt to reduce water in the system. Remember: only rain down the drain.



Check your drains are connected to the right system at www.watersafe.org.uk or look after your septic tank.



Dog, bird and other animal poo contain high levels of bacteria. Always bag and bin your litter and your dog's mess and please don't feed the birds at the seaside.

Only flush the 3Ps – pee, poo, (toilet) paper – and put kitchen fats in the bin to keep sewers as clear as possible and prevent overflows.

Take part in a beach clean – feel good while helping the beach feel good too!

Pledge to take action and reduce water pollution where you live

Catchment Based Approach

Llun gan Robin Rowe

Mae Caru Aber Dyfrdwy yn cael ei arwain gan Bartneriaeth Dalgylch Llanwol y Ddyfrdwy sy'n ceisio cynnal, gwella a diogelu Aber Afon Dyfrdwy drwy integreiddio'r dull seiliedig ar ddalgylchoedd o weithredu i hyrwyddo ei ddefnydd cynaliadwy, gwella ei werth o ran bywyd gwyllt a darparu hamdden a mynediad i natur.

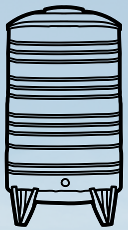
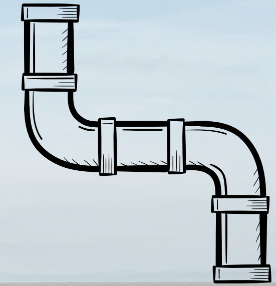
Heritage Fund

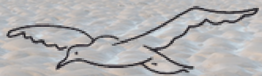
Catchment Based Approach

Mae dŵr yn draenio o drefi yn ystod glaw trwm a gall gynnwys llygredd. Beth am gael casgen ddŵr i leihau dŵr yn y system. Cofiwch: dim ond glaw i lawr y draen.





Gwnewch yn siŵr bod eich draeniau wedi'u cysylltu â'r system gywir yn www.watersafe.org.uk neu edrychwch ar ôl eich tanc septig.



Mae baw ci, adar ac anifeiliaid eraill yn cynnwys lefelau uchel o facteria. Bagiwch a biniwch eich sbwriel a baw eich ci bob amser a pheidiwch â bwydo'r adar ar lan y môr.

Dim ond y 3P – pi, pŵ, papur (toiled) – ddylech chi eu rhoi i lawr y toiled a rhowch frasterau cegin yn y bin i gadw carthffosydd mor glir â phosibl ac i atal gorlifo.

Cymerwch ran mewn sesiwn glanhau traeth - teimlo'n dda wrth helpu'r traeth i deimlo'n dda hefyd!

Addewid i weithredu a lleihau llygredd dŵr lle rydych chi'n byw

Cartref	Tref	Hanner Cyntaf y Cod Post	Y Gweithredu Sy'n Ca… Ei Addo

Gwnewch addewid i gymryd camau yn eich ardal i wella ansawdd y dŵr.
